The Republican believes in strictly one price for advertising, and accordingly it publishes its rates in full, and exactly as they are.

Special position 10 per cent extra.

Preferred Locals 10 cents per line first insertion, and 5 cents per line each subsequent insertion.

All contracts and bills for advertising payable monthly.

PLANT more fruit trees.

Fruit husbandry will pay better than a gold mine.

The militia boys made a fine appearance on their first public parade, yesterday.

The Territorial Normal school at Tempe, will close its ten-months' session on Friday, June 13.

PHOENIX has a fire department to be proud of. The boys paraded like veterans yesterday.

SEND a copy of the REPUBLICAN to your friends in the East. It will show them that Arizona has good papers.

TALK up sampling works for Phoenix. They are just what we need to bring back the flush times of one year ago.

The administration of the water supply of Phoenix has never before been so efficient as during the term now ending.

BASEBALL seems to be losing its attractiveness in the East and there are many who claim it will go the way of roller skating.

GOVERNOR POWERS' address yesterday was a splendid oration. Full of grand and patriotic utterances, an honor to the day and the occasion and a credit to Governor Powers himself.

Now that the Atchison has possession of the Atlantic and Pacific road it is to be hoped it will build one or two branch lines into Central and Southern Arizona. Such connections should surely pay.

REPORTS come to the REPUBLICAN of occasional damage to young fruit trees and vines by rabbits. Why not organize a rabbit drive, or several of them for that matter, and kill a few thousand of the pests?

MANY of the Republican papers of the Sixth Congressional District of California concede the Congressional nomination to San Diego, which makes it look very much as though Senator W. W. Bowers was the coming man.

THE Democratic hold-overs do not like the criticisms of the REPUBLICAN. It never expected that they would. There is not one of them but who is an usurper in the office he lays claim to and the REPUBLICAN has and will treat them as such.

REPUBLICAN leagues are being organized in almost every town in New Mexico. The Republicans of Arizona must be thoroughly organized if they hope to carry the Territory this fall. Republicans of Phoenix set the ball rolling by organizing at once.

R. C. BROWN, editor of the Florence Enterprise was a caller at the REPUBLICAN office yesterday. Mr. Brown has been engaged in Arizona journalism many years and the neat and prosperous appearance of his paper shows that he is a master of his business.

It is said that the Navy Department will fit out another squadron of evolution consisting of the new cruisers Philadelphia, Concord and Bennington, and the gunboat Petrel, which will follow in the wake of the first squadron in a trip to European ports. Uncle Sam's navy is beginning to loom up.

THE G. A. R. veterans are gradually reaching the sere and yellow leaf. On Memorial Day they fall in with the old time vigor, but their marching lacks that elastic step of youth. To them we owe all honor and reverence and no higher encomium can be given any man than to say "he wore the blue."

RIVERSIDE, California, which has always been a prohibition town owing to its extreme high license, is finally to have a saloon, a gentleman having been found who will pay the requisite \$2000 a year for the privilege. Unquestionably he will make money on his venture, too.

THE new cruiser Charleston, which left San Francisco ten days ago, ostensibly for the Sandwich Islands, under sealed orders, is now believed to have gone to Behring sea to aid the revenue cutters in guarding the seal fisheries. In case the report is true, the Canadian poachers will not get off so easily this year as they did last.

FRUIT CULTURE.

It is not among possibilities or probabilities, but is absolutely certain that there is no country within the limits of the United States that is superior to Arizona in the production of fruits. Enough has been already done in this direction to fully demonstrate this truth.

Having a climate where deciduous fruit trees grow for almost the entire year, such trees come into earlier and more prolific bearing than in the higher latitudes. In the gardens of Phoenix, and in the orchards in its vicinity we find the fig, orange, apple, pear, prune, apricot and peach bearing all that the trees can possibly support, when three years old.

Peaches every month from May to December inclusive, is the rule where the different varieties are grown, as they ought to be. In every orchard where shipping fruit is the object, great, luscious pears in summer, autumn and winter. Apricots earlier in season than any other country yet known. Figs, three or four crops a year, and oranges ripe in November, two months earlier than the California product. Wherever tried, such has been the result, and it needs no prophet's voice to predict a grand future for this Territory in its fruit output.

In the small fruits we have been equally successful. Grapes grow here as readily as weeds in other countries, while strawberries bear every month from February until October. Other small fruits do equally as well.

The experience of the agricultural world shows that a mixed husbandry is most profitable to the farmer. Every ranchman who fails to devote a few acres to fruits is blind to his own interests. In a year or two the orchards recently planted will be yielding a surplus beyond our home needs and those who have failed to plant fruits will realize the great mistake they have made. A mistake that will cost them not only the price of the fruit they must buy, but also two or three years time to make good by the planting of orchards and vineyards which they should have in bearing now.

A WORD TO DEMOCRATS.

It is amusing to read the Democratic papers. If they voice the party they pretend to represent, they are much disgusted and angry at the Republican officials of the Territory. If the officials appointed to office by a Republican President and a Republican Governor suited the Democratic party they would not be Republicans. It is the duty of men elected or appointed to office by a party to work in harmony with that party. The minority, or party out of power, can criticize and overhaul and inspect the acts of the party in power, and at the proper time expose frauds and defaulters if they find them. Why are the Democrats so loath to give up and turn over the places they are usurping? Is it because they are afraid to have an accounting?

Are not the Republican officials, as they come into power, bound by their responsibility to the government to overhaul the acts of the outgoing party, and if any criminality exists to expose it? If the party, going out of power has packed juries and prosecuted one side, then juries should be empanelled who will perform their duties fearlessly and bring the guilty ones to justice.

Why do the Democratic papers find fault with the judges of the Territory? Is it because they are afraid of an impartial tribunal? Mr. Democrat, you might as well hold up your head and face the music. At once turn over the offices you fraudulently hold and show your books. This trying to hide your offenses behind abuse of legal officials and abuse of the courts will not fool the people of Arizona.

THE Tombstone Prospector voices the sentiments of every newspaper in Arizona when it says: "Arizona asks why military headquarters should not be in the country that needs protection? Why should we be absolutely without protection unless orders come from San Francisco to the troops to move? It is the same old story: the barn door is fastened after the horse is stolen."

THE Pasadena Star says that Crisp, of Georgia, is the probable leader on the Democratic side in Congress, now that Randall is dead and Carlisle has gone to the Senate. In this the Star is amiss. Allen, of Mississippi, is by far the ablest Democrat in Congress, and he has all the qualifications of a leader. Furthermore, Mr. Allen has been the leader in the present session, notwithstanding Carlisle's presence.

THE TERRITORY.

A special term of the District Court will be held at Tombstone in September. A brilliant motor was seen at Tucson Wednesday night. Its course was east and west.

The dispatch sent to President Harrison by the citizens of Tombstone relative to the murder of Robert Hardie, consisted of 420 words and the cost of sending amounted to \$34.

Says the Tombstone Prospector: Tom Cochran, just from San Bernardino ranch, reports that twenty-five head of horses were stolen from the San Simon Cattle company last week and abandoned in the Animus valley. The supposition is that it was the work of Apaches as this is their method of traveling.

Citizen: An excursion of nine carloads of Hollanders went through this morning to California. There were fifty-four in the party. They will all settle in Merved county, each paying for their own land, in which they will invest a total of \$250,000. Unlike most settlers, these are wealthy, first-class people, and a credit to any country. The whole party took breakfast at the San Xavier.

Prospector: A. L. Cummings, has a family of wildcats in his yard that are getting along nicely under the watchful care of a domestic cat for a mother. They were captured in the Huachuca mountains and brought in to Colonel Hafford. Mr. Cummings had a mother cat that had just lost two kittens and the three young wild kittens were given to her. She takes the best of care of them and they are just as fond of their new mother as it seems possible for them to be.

Tucson Star: At Fort Lowell yesterday, before a large battalion of his comrades, First Sergeant James T. Daniels was decorated by Col. Compton with a handsome medal. This was conferred on him in recognition of brave and meritorious conduct in a movement against a hostile tribe of Apaches. The officers of the regiment were also present at the ceremony. Uncle Sam is always ready to acknowledge and reward bravery and meritorious conduct.

GEO. W. COBLE
